JD was a great GSI who made sure all of the students in the discussion were in full understanding of each topic.
JD was the best GSI I have had. He is very knowledgeable and is great at making everyone feel comfortable in the classroom. He is the only reason I showed up for discussions.
JD was rather helpful in expanding on concepts from the lecture and provided adequate assistance when needed. He genuinely cared about his students and consistently went out of his way to make sure everyone understood the course material (i.e. giving detailed explanations on discussion and practice exam questions). Overall, his efforts as a GSI helped me progress with the course.
JD was helpful in clarifying the lecture material
Jon Denton–Schneider did a good job during sections to go over materials and practice concepts, however, his advice for certain assignments was vague.
I really enjoyed this discussion section and JD was super chill and helpful. I thought discussion was super helpful and I liked the small environment of people who wanted to be there. Overall I think JD did a great job.

JD was very helpful throughout the semester. He answered questions well and was always willing to help students outside of class.
It was overall good
Great GSI
Expectations of economics in action essays are way too vague
One of the most welcoming instructors I have ever had. Amazing.
JD was a great teacher. Was very nice and respectful. I loved hearing about his dogs before every section.
Very helpful discussion section.
